

EDITORIAL.

Work and Play.

If the hackneyed 'mens sana in corpore sano' is to be held up as an ideal for School ambition, we can safely say that, as far as results go, we are in the way of moving towards it. Mind and body form the human ego, and attention to both must be given if not in equal measure, at least in due proportion. The invalid genius and the giant dullard are extremes that we must avoid. The Senior Wrangler who gets his Blue and the First-Class Classic who plays for England are very useful and acceptable members of society.

The results of the Cambridge Local Examinations were published early in February, and were very satisfactory. Fifteen boys were entered for the Senior and Junior, all were successful; five getting First Classes and two Third Classes. This is altogether a record for the School. 7 per cent. is the usual proportion of first classes to entries. The full results are given in another column.

We have also set up another record, as far as we can trace, by beating Coatham twice in one term. Moreover we won all our matches

except the last, which was against Middlesbrough High School, when four members of the first eleven were absent from the team. The School Eleven certainly has done very well: it has shewn a *united* front to the foe—a thing which in some undefinable way goes further than most people imagine towards success in anything; it has too given proof of character, which is formed far more lastingly and surely on the cricket and football field than in the class-room.

School Notes.

About three hundred square yards have been levelled to extend the cricket pitch. Though expert assistance was called in to do the actual turfing, the collar work was all done by the boys themselves. The principle on which such 'navvying' is done is that he who wants a good pitch to play on must help to make and keep that pitch good.

More gardens have been rented this term; we hope some means may be found to prevent the wholesale disappearance of the produce which occurred last year. We hope also our neighbours will soon cease to look upon the gardens as a dumping ground for any old rubbish.

Appended to this issue of the Magazine is a Catalogue of Library Books. It should be carefully retained for future use.

We wish to remind our readers that the Museum is still open to receive contributions of all kinds of natural objects. Collections of eggs, moths, butterflies, beetles, shells, leaves, pressed flowers, etc., made by boys are most welcome.

One of the most curious facts concerning the curious weather of this Term is that we had more rain on the 4th of April than in the whole of March put together. March -47. April 4th :5 of an inch.

Cambridge Local Examination Results.

Senior. First Class. Robinson i. distinguished in Religious Knowledge, French and History. Passed: Moore, Cowen.

Junior. First Class. Robinson ii. distinguished in Religious Knowledge, English and French; Ward ii. distinguished in Religious Knowledge and Latin; Wilson iii. distinguished in Religious Knowledge; Bolton.

Third Class. Moody, Ward i. Passed (in order of merit): Pybus, Carter, Thompson, Mayhew, Farnedale, Burdon.

Preliminary. Third Class. Linford. Passed (in order of merit): Morrison ii, Pattinson i, Garwood, Newson, Morrison i, Teale, T'Anson, Denby, Allison.

Out of 4,447 Senior Candidates, Robinson i was 16th in Religious Knowledge, 3rd in English History, and 27th in French.

Out of 6,350 Junior Candidates, Ward ii was 181st, Robinson ii 200th, and Wilson iii 219th, in Religious Knowledge. Robinson ii was 147th in English. Ward ii 58th in Latin. Robinson ii 79th in French.

Preliminary Certificate Examination. Part I. Passed: Casson, Cooke, Spires.

Football Resume.

The present term has been one of the most successful in the School's career. Nothing but praise can be accorded to the players for their

exploits on the field. We have to go back to the Christmas term of 1903 to find a record equal to the second half of this season. In one respect to the present term's result is better than that of 1903. Whereas we then only succeeded in playing a draw of one each at Coatham, we have now to engrave on the scroll of fame the fact that Coatham had to retire from the home arena defeated by three goals to two, on that memorable Saturday, February 23rd, 1910.

This victory is the first for at least 12 years. In 1903 not a game was lost; this term we had to put up with defeat at Middlesboro', for which there was every excuse, the School having to depend on the services of two reserve backs and two reserve forwards on that occasion.

The great advance made this term by an XI practically the same as last term, will be at once evident by the following summary of matches played.

This Term.	Played	Won	Lost	Drawn	Goals for	Against
	8	7	1	0	28	8
Last Term.	10	5	4	1	38	26
Whole Season.	18	12	5	1	66	34

It would be invidious to particularize any players for special commendation amid the general excellence of the team this year. The reason of the success may be very briefly accounted for by the fact that the forwards have always kept as their objective, the opposite goal, and the defence has striven strenuously to maintain the School goal intact.

We must congratulate Charlton's Juniors on their success in winning the North Riding Junior Cup, and for that we can take some little credit to ourselves—seeing that Charlton's has had the services of A. Barker and of two old boys in P. Bewick and E. Clarke. W. Ackroyd, our centre forward played at outside left for them in the re-played semi-final cup tie at Skelton, when after playing a very clever progressive game, he had the misfortune to have his arm broken in the second half. We are sure he has the sympathy of all our readers who will be pleased to hear that the fracture is coalescing very satisfactorily.

Characters of the Football Eleven.

ACKROYD—A very good forward with great dribbling powers; a brilliant shot; must try to make more opening for others.

SPIRES—Has played goal during the greater part of the season; is much too slow in clearing, and not a strong kick, but is keen and works hard.

LECKENBY—Goal during the latter part of season; has played well, but trusts too much to kicking.

BARKER—As good a back as a school team could wish to have; good tackler, strong and sure kick, and a very hard worker. Much of the team's success is due to his defence.

THUBRON—Fairly good back, strong kick, but is apt to miss his kick. Must not go for the player at the risk of losing the ball.

WATSON—Right-half. Good tackler, but slow and not a sure kick; plenty of weight and keen worker; with practice will make a good half.

MOODY—Centre-half. Has weight and uses it to advantage; strong kick; slow at times; has been a great help to the team.

MOORE—Has improved considerably this season, fairly fast and sticks to his man well; works hard, but must use judgement in passing.

COOKE—Outside-right. Is fast, has good control of the ball, and centres well. Has played very well throughout the season. Most marked improvement.

WILSON—Has played on several occasions; passes well and sticks to his work. Is rather too fond of doubtful tackling.

LINFORD—Left-inside. Shapes very well; plays excellently with his wing man, and with more weight will make good forward.

BROWN—Outside-left. Has played well; centres with judgement, though he lifts the ball somewhat; has shot very well on several occasions, and has done much towards winning matches.

WARD—Has played in the half-back line; works hard but is not a good kick; is too slow and hesitates to dash in and tackle his man.

CASSON—Has improved very much since last season; he works well with his outside forward and has considerable control of the ball, but he is slow at times and lacks dash.

School v. Middlesbrough High School.

Team: Goal, Fisher; backs, Thubron, Barker; half-backs, Watson, Moody, Moore; forwards, Cooke, Casson, Ackroyd, Wilson, Brown.

Played at Guisborough, Feb. 5th.

Middlesbrough arrived with only nine men and picked up two on the field. The school team kicked with the wind in the first half and succeeded in scoring three goals.

In the second half the play was very even and the ball travelled from end to end, but finally Cooke carried the ball down the field and scored. Middlesbrough then succeeded in scoring, but a fifth goal was added by the home side.

Result: School 5. Middlesbrough H. S. 1.
Scorers: Ackroyd 2. Casson 2. Cooke 1.

School v. Ayton Friends' School.

Team: Goal, Leckenby; backs, Thubron, Barker; half-backs, Ward, Moody, Moore; forwards, Cooke, Casson, Ackroyd, Wilson, Brown.

Played at Guisborough, Feb. 16th.

Ayton came with five masters in their team. The play was fairly even; the school forwards did not play in their usual form, but Ackroyd scored two good goals. The second half was keenly contested, and Ayton succeeded in scoring on one occasion. There was no further scoring.

Result: School 2. Ayton 1.

School v. Stockton G. S.

Team: Goal, Leckenby; backs, Thubron, Barker; half-backs, Moody, Moore, Ward; forwards, Cooke, Fisher, Ackroyd, Linford, Brown.

Played at Guisborough, Feb. 19th.

Stockton's team contained several old boys. There was a strong wind blowing and Stockton had it in their favour in the first half. Each team succeeded in scoring once. In the second half there was continued pressure on Stockton's goal, and six goals were scored, Brown scoring 3.

Result: School 7. Stockton 1.

School v. Coatham.

Team: Goal, Hutchinson; backs, Thubron, Barker; half-backs, Ward, Moody, Moore; forwards, Cooke, Casson, Ackroyd, Linford, Brown.

Played at Coatham, Feb. 23rd.

Aided by the wind the School kicked up the hill, and Brown scored twice and Ackroyd scored a third.

On changing ends the play was very even but Coatham had most of the play and scored twice. They pressed hard but could not succeed in scoring a third.

Result: School 3. Coatham 2.

School v. Guisbro' Scouts.

Team: Goal, Spires; backs, Moody, Thubron; half-backs, Watson, Moore, Ward ii; forwards, Cooke, Casson, Ackroyd, Linford, Brown.

Played on the Scout's field, Feb. 26th.

The Scouts were represented by a good team and they were determined to win. The play was of a very even character during the first half, the only score being by Cooke for the School.

Before the second half was commenced there was snow, which continued almost to the end of the game. Ackroyd added a second goal for the school.

Result: School 2. Scouts 0.

School v. Guisbro' Scouts.

Team: Goal, Spires; backs, Thubron, Moody; half-backs, Watson, Wilson, Moore; forwards, Cooke, Casson, Ackroyd, Brown, Fisher.

Played on the School field, March 5th.

This game was played in brilliant weather, and play was very even at the commencement but the home side succeeded in scoring twice.

In the second half the school team pressed and added four more goals, making a total of six, but the scouts were unable to score.

Result: School 6. Scouts 0.

School v. Coatham.

Team: Goal, Leckenby; backs, Thubron, Barker; half-backs, Ward, Watson, Moore; forwards, Cooke, Wilson, Ackroyd, Moody, Brown.

Played at Guisborough, March 12th.

We were again favoured with fine weather and everything pointed to a keen game. Coatham played with the wind but were unable to score, the home defence playing a good game.

In the second half the home side had most of the play and Ackroyd scored a very good goal. Cooke added a second.

Result: School 2. Coatham 0.

School v. Middlesbrough H. S.

Team: Goal, Leckenby; backs, Brown, Moody; half-backs, Wilson, Watson, Moore; forwards, Fisher, Cooke, Casson, Ward, Foster.

Played at Middlesbrough, Mar. 19th.

We could only raise a weak team to go to Middlesbro'. During the first half Middlesbro' did all the pressing, and the defence did well in only allowing them to score twice.

In the second half play was more even, Middlesbro' getting a third, and Cooke scoring for the school.

Result: Middlesbro' H. S. 3. School 1.

SOCIAL.

A Social Evening was held in the Temperance Hall on Thursday evening, April 7th, in aid of the Ground Improvement Fund. From eight p.m. till about half-past ten both a Whist Drive and Dancing were in progress, the Music being provided by Mrs. Hunt's band. In the Whist Drive the first ladies' prize was won by Garwood, who was playing as a lady; Mrs. Hutchinson being second. Mr. Hutchinson and Forster tied for the first gentlemen's prize and the result was decided by cutting, Mr. Hutchinson being successful. After supper dancing continued till 12-30. Altogether about one hundred people were present.

Social, 1910. Receipts.

Hints on Bird's Nesting.

The time is now drawing nigh when the birds of England make their nests and lay their eggs in them, and it behoves every manly boy to be up and doing, lest these feathered creatures, which already do so much damage to buds and fruit, and even the mortar between the tiles, multiply excessively and do much more.

Exactly how much damage is done by each bird I cannot say; but gardeners and farmers will assure you that they are a pest, one and all; while as for nightingales, it is notorious that they are the best friends to that insidious malady, insomnia, father of madness and despair. Plovers do not perhaps work much evil, but is it reasonable that a wise providence would have made their eggs exceedingly good to eat if man was not to eat them? Rooks disfigure the neighbourhood; owls shriek in the night with disastrous results; hawks kill young chickens (or so it is said); and wrens and robins increase holes in the wall, which leads to expense. In short, the bird's-nester can very easily, if he tries hard and has any gift for sophistry, come to look upon himself as a national benefactor; and what is pleasanter than that?

Birds build in all kinds of places, even on the ground. Plovers for example, and the irritating lark (so difficult to see in the sky and so easy to lose again) lay their eggs where anyone can step on them. How much better to remove them and place them in the collection (or, in the case of the plover, in the cuisine) than to leave them to be smashed beneath the foot of man or beast! Thrushes and blackbirds build in hedges, and take almost no precautions to prevent discovery. Treat them, therefore, as they deserve. They ask for no quarter: give none. After all, the young birds, if allowed to hatch out, would merely become only so many more tiresome fluters and whistlers at evening and consumers of worms and slugs.

Sparrows build in gutters and pipes or under the roofs, and often their nests cause stoppages and overflows, but since the eggs are not pretty and very common, you need not trouble to take them. Concentrate your energies rather on the rare birds and singing birds. The nightingale, for example. You can get a shilling each for these eggs, so take all you can find and ensure quieter nights. Swallows again—these are not English birds, any more than the nightingale; they are emigrants who settle here (like the Germans) and eat our food. You know, being an honest English boy, how to deal with foreigners.

So get your climbing irons out, my brave young fellow, and your cotton-wool, and your box, and your blowpipe, and start forth on the great annual adventure. And particularly remember what I have told you about nightingales.

Punch.
